

ULTIMATE CARAVAN AWNING TIE DOWN KIT

CODE: SUATDK-30

Overview

A smarter way to secure your setup, whether you're using a caravan awning, camper trailer, 4WD awning, tent or gazebo. The screw-in pegs go in quickly with the included drill adaptor. Reflective heavy-duty guy ropes are easier to see at night, and glow-in-the-dark peg heads are easier to find after dark. When you're packing up, the 400GSM PVC-lined canvas bag keeps everything together and protected, with a durable zip and carry handle.

Details

- 1 x 13mm Hard Ground Screw-In Peg Drill Adapter
- 1 x Heavy-Duty Gear Bag, 40L x 30W x 14H

FAQ

WHAT CAN I USE THE KIT WITH?

It's designed for caravan awnings, camper trailers, 4WD awnings, tents and gazebos. Check that the included fittings suit your particular setup.

WILL IT STOP MY AWNING FLAPPING IN THE WIND?

The guy ropes and tie downs help reduce movement and wind flap, which can help minimise fabric wear. They do not make an awning safe to leave in all wind conditions.

HOW MANY GUY ROPES AND GROUND PEGS ARE INCLUDED?

The kit includes two reflective guy ropes, six hard ground screw-in pegs and eight screw-in mat pegs.

ARE THE ROPES EASY TO SEE AT NIGHT?

The guy ropes are reflective, and the hard ground pegs have glow-in-the-dark heads to make them easier to locate after dark.

WHAT ARE THE SAIL TRACK LOOPS FOR?

The kit includes two sail track loops with carabiners for attaching the guy ropes to a compatible awning sail track. They can also be used to hang items from your awning.
